CONTENTS OF VOLUME 380

November June 1986

GANITKEVICH V.YA., SHUBA M.F. & SMIRNOV S.V. Potential-dependent calcium inward current in a single isolated smooth muscle cell of the guinea-pig taenia caeci. 1

HUANG C.L.-H. The differential effects of twitch potentiators on charge movements in frog skeletal muscle. 17

GERBER John G. & NIES Alan S. Renal vasoconstrictor response to hypertonic saline in the dog: effects of prostaglandins, indomethacin and theophylline. 35

CUMMIN Andrew R.C., IWAYE Vincent I., JACOBI Margaret S., MEHTA Nawser, PATIL Chandu P. & SAUNDERS Kenneth B. Immediate ventilatory response to sudden changes in venous return in humans. 45

MARTIN-BODY R.L., ROBSON G.J. & SINCLAIR J.D. Restoration of hypoxic respiratory responses in the awake rat after carotid body denervation by sinus nerve section. 61

STEPHENSON D.G. & THIELECZEK R. Activation of the contractile apparatus of skinned fibres of frog by the divalent cations barium, cadmium and nickel. 75

AKASU T. & KOKETSU K. 5-Hydroxytryptamine decreases the sensitivity of nicotinic acetylcholine receptor in bull-frog sympathetic ganglion cells. 93

JMARI K., MIRONNEAU C. & MIRONNEAU J. Inactivation of calcium channel current in rat uterine smooth muscle: evidence for calcium- and voltage-mediated mechanisms. 111

MINAMI Taketsugu, OOMURA Yutaka & SUGIMORI Mutsuyuki Electrophysiological properties and glucose responsiveness of guinea-pig ventromedial hypothalamic neurones *in vitro*. 127

MINAMI Taketsugu, OOMURA Yutaka & SUGIMORI Mutsuyuki Ionic basis for the electroresponsiveness of guinea-pig ventromedial hypothalamic neurones *in vitro*. 145

LANDMESSER Lynn T. & SZENTE Magdolna Activation patterns of embryonic chick hind-limb muscles following blockade of activity and motoneurone cell death. 157

DINGLEDINE Raymond, HYNES Mary A. & KING Gregory L. Involvement of *N*-methyl-D-aspartate receptors in epileptiform bursting in the rat hippocampal slice. 175

CHINN Kevin & NARAHASHI Toshio Stabilization of sodium channel states by deltamethrin in mouse neuroblastoma cells. 191

BAUX G., POULAIN B. & TAUC L. Quantal analysis of action of hemicholinium-3 studied at a central cholinergic synapse of *Aplysia*. 209

COLOMO F., LOMBARDI V. & PIAZZESI G. A velocity-dependent shortening depression in the development of the force–velocity relation in frog muscle fibres. 227

DYBALL R.E.J. & LENG G. Regulation of the milk ejection reflex in the rat. 239

JULIAN F.J., ROME L.C., STEPHENSON D.G. & STRIZ S. The influence of free calcium on the maximum speed of shortening in skinned frog muscle fibres. 257

BELLUZZI O. & SACCHI O. A quantitative description of the sodium current in the rat sympathetic neurone. 275

SANDERS Kenton M. & SMITH Terence K. Motoneurones of the submucous plexus regulate electrical activity of the circular muscle of canine proximal colon. 293

HODGKISS J.P. Intrinsic reflexes underlying peristalsis in the small intestine of the domestic fowl. 311

SOPER B.D. & TEPPERMAN B.L. The effect of adrenergic, cholinergic and peptidergic salivary stimulants on gastric mucosal integrity in the rat. 329

FORD T.W. & MCWILLIAM P.N. The effects of electrical stimulation of myelinated and non-myelinated vagal fibres on heart rate in the rabbit. 341

LALLEY P.M. Responses of phrenic motoneurones of the cat to stimulation of medullary raphe nuclei. 349

LALLEY P.M. Serotoninergic and non-serotoninergic responses of phrenic motoneurones to raphe stimulation in the cat. 373

GRIFFITHS T.L., HENSON L.C. & WHIPP B.J. Influence of inspired oxygen concentration on the dynamics of the exercise hyperpnoea in man. 387

AL-MODHEFER A.K.J., ATHERTON J.C., GARLAND H.O., SINGH H.J. & WALKER J. Kidney function in rats with corticomedullary nephrocalcinosis: effects of alterations in dietary calcium and magnesium. 405

CROSS Brenda A., LEAVER Kathryn D., SEMPLE S.J.G. & STIDWILL R.P. The effect of small changes in arterial carbon dioxide tension on carotid chemoreceptor activity in the cat. 415

PEATFIELD A.C., RICHARDSON P.S. & WELLS U.M. The effect of airflow on mucus secretion into the trachea of the cat. 429

HENRIKSSON J., KATZ A. & SAHLIN K. Redox state changes in human skeletal muscle after isometric contraction. 441

BLAKEMORE Colin & VITAL-DURAND François Organization and post-natal development of the monkey's lateral geniculate nucleus. 453

BLAKEMORE Colin & VITAL-DURAND François Effects of visual deprivation on the development of the monkey's lateral geniculate nucleus. 493

MCGRATH John C., MACLENNAN Stephen J., MANN A. Cameron, STUART-SMITH Karen & WHITTLE Martin J. Contraction of human umbilical artery, but not vein, by oxygen. 513

NORDMANN Jean J. & STUENKEL Edward L. Electrical properties of axons and neurohypophysial nerve terminals and their relationship to secretion in the rat. 521

MORIMOTO Akio, MURAKAMI Naotoshi, NAKAMORI Tomoki & WATANABE Tatsuo Suppression of non-shivering thermogenesis in the rat by heat-seeking behaviour during cold exposure. 541

DEITMER Joachim W. Voltage dependence of two inward currents carried by calcium and barium in the ciliate *Stylonychia mytilus*. 551

HAGBARTH Karl-Erik, KUNESCH E.J., NORDIN M., SCHMIDT R. & WALLIN E.U. γ Loop contributing to maximal voluntary contractions in man. 575

DODT H.U. & MISGELD U. Muscarinic slow excitation and muscarinic inhibition of synaptic transmission in the rat neostriatum. 593

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

23–24 *June* 1986

Dundee Meeting

DEMONSTRATIONS

Chipperfield A.R. & Part N.J. Microcomputer graphics for use with physiology teaching programs. 2*P*

Boyd W. & Lakie M. Aperiodic of the human finger. 3*P*

Miller R.W.S., Purvis N.S., Ramsay W.W. & Thompson J. Analysis of dynamic lung values by an inexpensive combination of a wedge spirometer and a microcomputer. 4*P*

Aitken J., Part N.J. & Thompson J. A microcomputer controlled system for the measurement of aerobic power. 5*P*

Leslie G.C. "MISER" – my "inexpensive" solution for excavating records 6*P*

Bryant Cecily A., Leslie G.C. & Part N.J. Microcomputer control and analysis of experiments on the staircase phenomenon of skeletal muscle in man. 7*P*

Farquhar Ruth & Part N.J. The measurement of gamma discharge to the soleus muscle in the decerebrate rat. 8*P*

Morton Alison J., Walsh E.G. & Wright G.W. An isometric tremorograph (for human observations). 9*P*

Beck J.S., Harper E.I. & Spence V.A. Quantitative assessment of pharmacologically induced erythema in man. 10*P*

Leiper J.B. & Maughan R.J. Improved reproducibility in measurement of jejunal absorption rates *in vivo* in man. 11*P*

Aiton J.F., Boyd W. & Ingram C.G. A simple method for synchronising tape commentary to Microtext modules on a BBC microcomputer. 12*P*

Gleeson M., Haggerty P., McGaw J.P. & Maughan R.J. A method for the collection of samples of water lost as sweat in exercising human subjects. 13*P*

Hughes S.P.F., Law H.T. & Phillips P. An isometric myograph for human observations. 14*P*

Harper A.A. Soma – sensory receptor relationships in rat dorsal root ganglion (DRG) neurones. 15*P*

Taylor P.M. The study of amino acid transport in rat liver, perfused and *in vivo*. 16*P*

Egan C. & Solly M. The use of the vascularly and luminally perfused rat intestine for studies of transport of ions, water and amino acids and of protein turnover. 17*P*

Scrimgeour C., Smith K., Solly M. & Weryk B. Preparation and mass-spectrometric analysis of 13-C of CO_2 derived from breath. 18*P*

Andrews B.J. & Baxendale R.H. A hybrid orthosis incorporating artificial reflexes for spinal cord damaged patients. 19*P*

Bunt S.M., Fry D.J. & Whitehorn M.A.F. Computer-aided design software suitable for physiology teaching and research. 20*P*

Boyd W., Heitler W.J. & Pitman R.M. A microcomputer simulation of inhibitory neuronal networks. 21*P*

COMMUNICATIONS

Elliott J.R., Haydon D.A. & Murrell R.D. The effects of carboxylic esters on Na current inactivation in axons of Loligo. 22*P*
